look younger
and feel healthier
due to the revolutionary
***KOLLER* MILK O₂ Treatment**
100 % pure water - no additives

Taking a bath in our enriched oxygen water will leave you feeling more youthful and vibrant than ever before.

The fountain of youth - the signs of aging belong to the past

Oxygen offers the beauty of youthfulness. Oxygen fights free radicals in the skin which are responsible for aging. It triggers the production of collagen that is a firming and skin tightening natural skin agent.

Advantages:

wrinkles reduced, fine lines diminished and age spots lightened. Thus, the skin regains its youthful appearance.

Also for men

Oxygen is essential for life, including your skin

**Just like oxygen acts as a fire extinguisher to your anxiety,
it can also act somewhat the same for your skin!**

**One of the best anti-inflammatories for skin is oxygen!
Additionally, oxygen is amazingly beneficial for your cells.**

***KOLLER* MILK O₂ Treatment**

When the oxygen level in the cell decreases, the cells will start to decay, and soon die. Oxygen increases cell metabolism, which escalates the production of new cells. The more oxygen your skin obtains, the more energetic your skin will appear.

So why does oxygen work to make our skin smoother and softer?

The theory behind oxygenated beauty is that we all need oxygen for survival.

Oxygen is what revives and replenishes the cells in our body. However, due to the pollutants in our environment today, our oxygen content has been greatly reduced. It is also a fact, that as we age, oxygen does not reach our skin cells as efficiently, which is what leads to the aging process.

If you want beautiful, glowing, clear skin then you need **KOLLER MILK O₂ Treatment.**

A 20-minute bath cycle in our oxygen enriched bath is enough for results that convince.

***KOLLER* MILK O₂ Treatment is the
fountain of youth for body and soul**

**Your biological clock is set
backwards by years**

**This bath will give you a wellness treatment like no other!
Tiny oxygen rich microbubbles will cover you in a silk
blanket leaving you feeling rejuvenated.**

Your skin will feel fresh, clean and moisturized.

**Not only is oxygen applied to your skin, you also
inhale an infusion of negative charged ions which
are known to improve serotonin levels in the brain.**

**As a result, you will feel a deeper relaxation
and a better well-being.**
